

Sawat Wongsaroj

Full-stack engineer — React · TypeScript · Node · SQL · Azure · IoT

Parramatta, Sydney

sawatw2000@gmail.com

SUMMARY

Full-stack engineer with three years owning features end-to-end — React/TypeScript interfaces, Node APIs, SQL data layers and Azure deployment — including a year keeping live environmental monitoring hardware running in the field across NSW & ACT.

EXPERIENCE

Full-Stack & Field Engineer

Mar 2025 — Apr 2026

RWDI Australia · Sydney

- Rebuilt smartadata.io end to end — legacy Drupal/PHP to React + Node on Azure, 90%+ faster, delivered in 5 months against a 12-month plan.
- Kept live noise, vibration and PM2.5 monitoring running across NSW & ACT — Linux, Python and IoT hardware in the field.

Full-Stack Web Developer

Jun 2024 — Mar 2025

Phuket Greenland Property · Remote

- Built TheLakeHouse — villa management covering properties, clients, leases and PDF invoicing (React, TypeScript, Node, PostgreSQL).
- Shipped a bilingual EN/TH villa listing site with galleries, SEO and inquiries (Vite, Tailwind, shadcn/ui).

Web Developer

Oct 2023 — Mar 2024

COG Branding · Sydney

- Custom Shopify themes in Liquid, plus parallel WordPress and React builds for Australian clients.
- Owned cross-browser fixes, performance and on-page SEO across client storefronts.
